

PROJECT PRESENTATION

SEMINAR: COMPUTATIONAL SOCIAL SCIENCE

AGENDA

introduction of our team

discussion of problem and solution

presentation of our idea and design

WHO ARE WE?

- Our team:
 - 2x Information Systems Bachelor students
 - 3x Computer Science Bachelor students

Luca

Marlon

Sophie

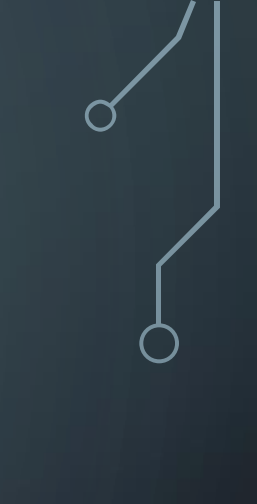

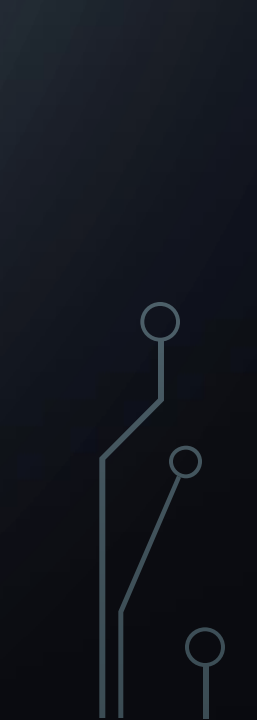

Thommy

Yan

THE PROBLEM

- (mostly elderly) having problems finding their way in the digital world
 - lack the digital skills or capacity to look up solutions on their own online
 - rely on personal, human assistance
 - many people have the ability and want to support others
 - need a way to connect
 - our platform enables that
- 
- 
- 

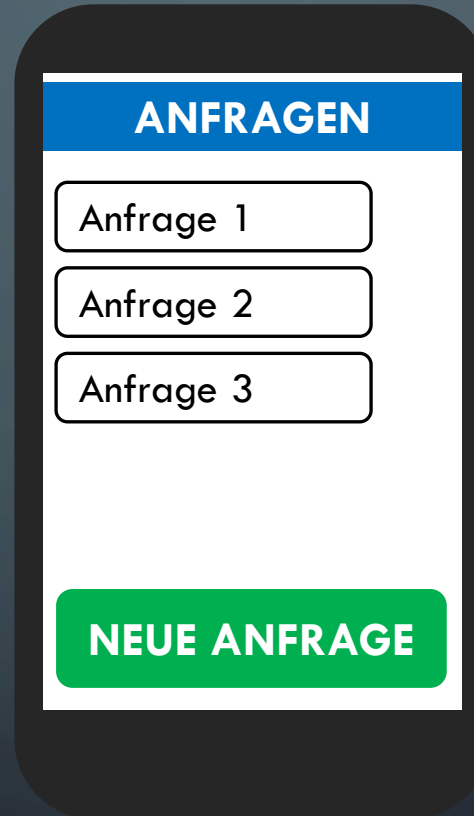

THE IDEA

- app for connecting the people who need help and those that can render it
- service requests that can be processed
- different view/layout for requesting and helping side
- chatting option

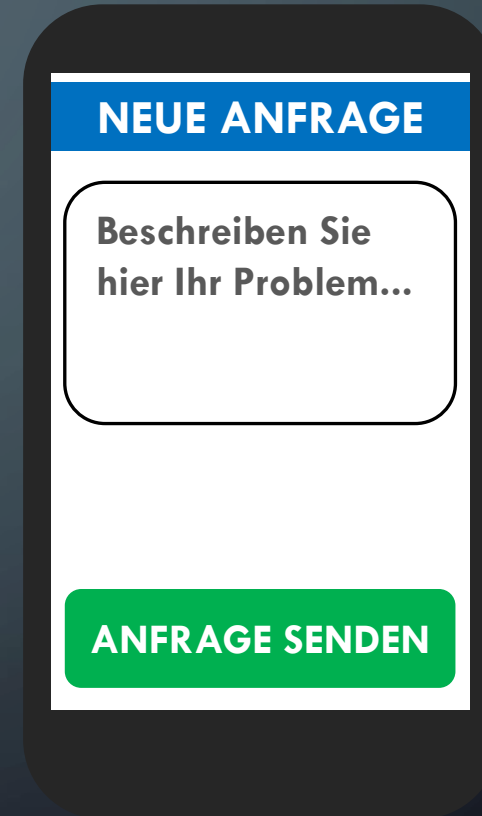

UI FOR REQUESTS

- intuitive, simple design
- readability
 - large font size
 - less elements
- easy access

A mobile app interface for viewing requests. It features a blue header with the text "ANFRAGEN". Below the header, there are three white rectangular buttons with black borders, each containing the text "Anfrage 1", "Anfrage 2", and "Anfrage 3" respectively. At the bottom of the screen, there is a large green button with the text "NEUE ANFRAGE" in white.

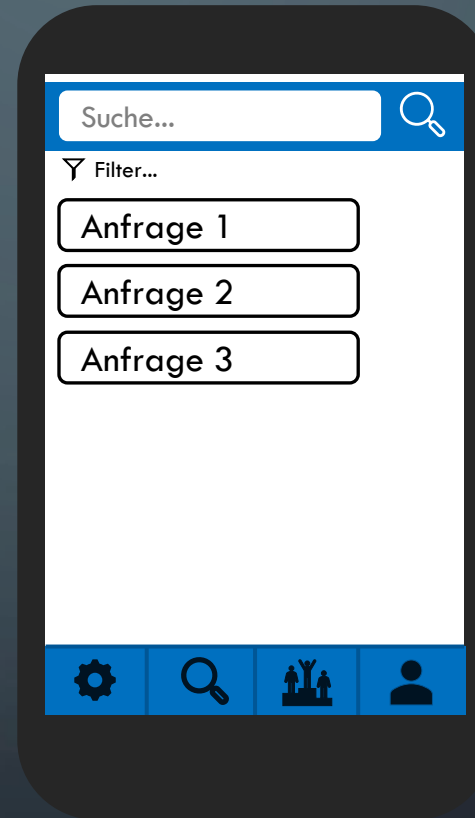

A mobile app interface for submitting a new request. It features a blue header with the text "NEUE ANFRAGE". Below the header, there is a large white rounded rectangular text area with a black border, containing the text "Beschreiben Sie hier Ihr Problem...". At the bottom of the screen, there is a large green button with the text "ANFRAGE SENDEN" in white.

UI FOR HELPING

- view of requests with search & filter options
- feature richer
- individual user profiles
- incentive e. g. point system & scoreboard

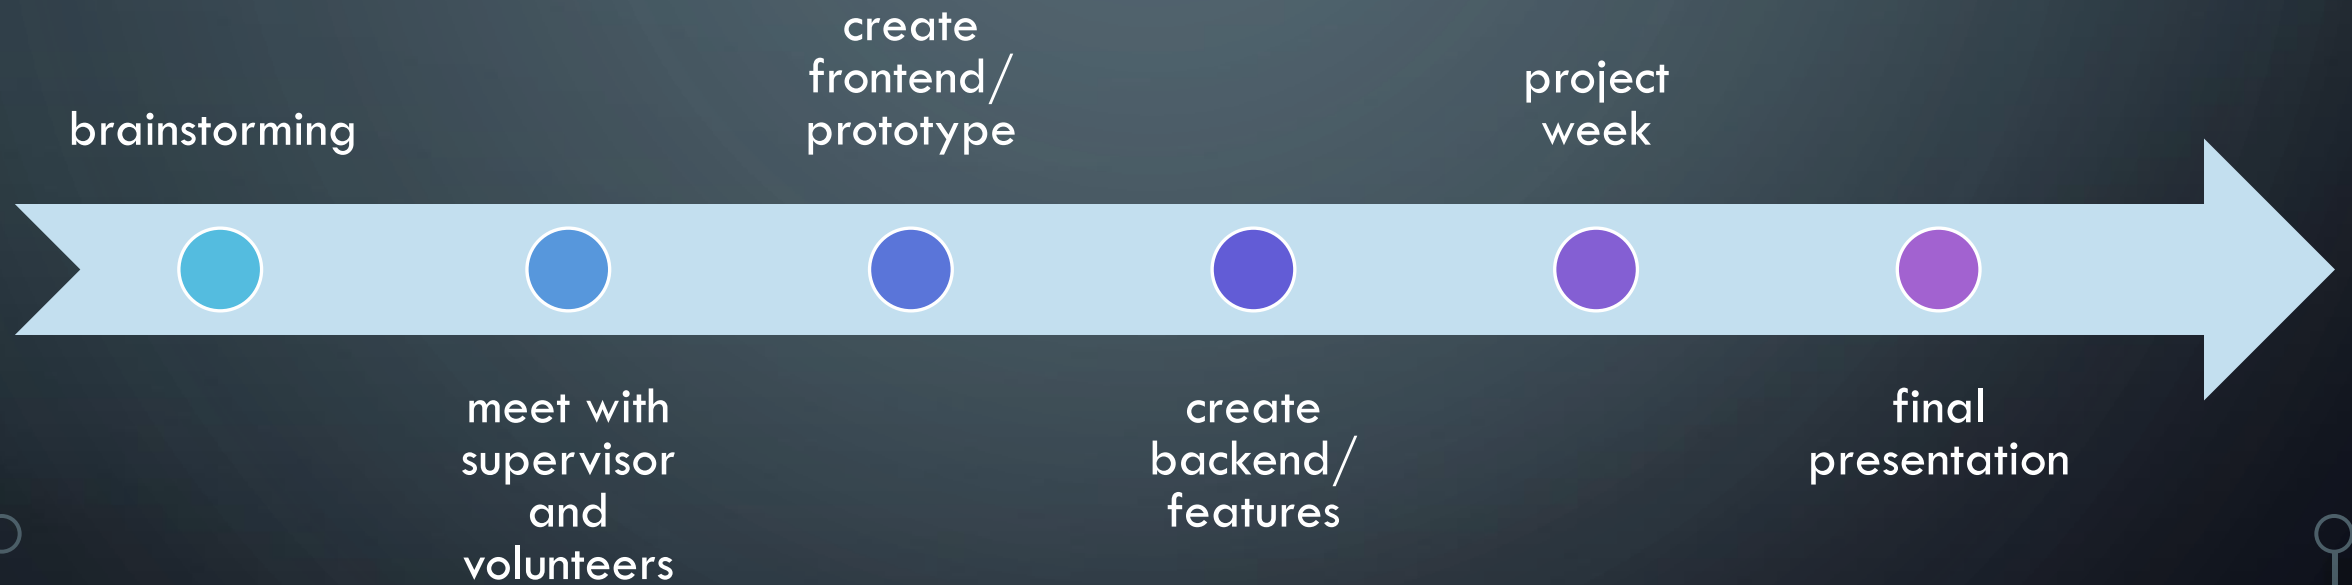

FUTURE IDEAS / EXTENSIONS

- more filters / categories
- better matching
- offering help with everyday tasks
- include locations to make meeting in person easier
- other incentives for volunteers to help
 - team events, ...

OUR ROADMAP

TIME FOR QUESTIONS!
